**SCHEME TO CONNECT TWO PROVINCES
BY LONG DISTANCE LINE.**

A GREAT CONVENIENCE

The Crow's Nest Building Line to
Crow's Nest and with Ask Alberta
Government's Main Connection with
the Province of Alberta. Both New
Buildings.

There is excellent prospect that
The Pass will soon have one of the
most convenient that could be
imagined, a long distance
telephone line through the entire
Crow's Nest Pass and affording tele-
phone communication between all
parts of the provinces of Alberta and
British Columbia.

If there is realization of the prospect,
it will be brought about through
the consummation of a project where-
by the Cranbrook Electric Light com-
pany will build a line to Crow's Nest
and the Alberta government will ex-
tend the line to the building to The
Pass to Crow's Nest, the two lines
connecting at that point. There is
good probability that the project will
materialize.

The Cranbrook company has a
waterpower plant near Cranbrook
from which electric power is to be
supplied to Cranbrook and other
places along the Crow's Nest Pass.
One phase of its scheme of operations
is to build a long distance telephone
line through the Crow's Nest Pass, or
rather the portion of it, lying in
British Columbia. This line is now
being surveyed and it is the
intention to extend it to Crow's Nest.

The Alberta government, as is
known, is building a line to The Pass
from the Crow's Nest. This line is
now being surveyed and it is the
intention to extend it to Crow's Nest.
The Alberta government, as is
known, is building a line to The Pass
from the Crow's Nest. This line is
now being surveyed and it is the
intention to extend it to Crow's Nest.

In addition to the rent a royalty of
five cents per ton of 2000 pounds will
be levied on the output of the mine.
A sworn statement of the output must
be given by the person operating the
mine. In default of this the lease
may be cancelled. In case of dis-
putes provision is made for arbitration.
The arbitrator will get \$5 a
day and travelling expenses. Under
these regulations prepared by the
minister of the interior parties will be
unable to hold coal for speculative
purposes. They must be operated or
become liable to cancellation.

The consummation of the project
would be of the greatest possible
benefit to not only the people along
the Crow's Nest line but to the whole
people of Alberta and British Columbia
as the government's scheme is to give
connection with all parts of the
province while the Cranbrook people ex-
pect to ultimately extend west to the
coast or at least to a connection with
the coast. In view of the well
known service of the C.P.R. tele-
graphs which does not permit of a
resident of The Pass sending a mes-
sage a hundred miles and getting a
reply inside of two days, the ability
to transact business by telephone with
any part of either province, would be
a boon indeed.

The Hilarious mine remains idle,
not having started up since the strike.
It is understood the resumption of op-
erations will be deferred until the re-
turn of the managing director who
has been absent some months. The
construction of the new building
plant is being carried forward.

COAL LAND REGULATIONS

New and important regulations for
the disposal of coal mining rights, the
property of the crown in Manitoba,
Saskatchewan, Alberta and the Yukon
territory, and dominion lands gener-
ally, have been promulgated and will
appear in the next Canada Gazette.
They provide that coal mining rights
may be leased for a term not exceeding
rental of \$10 per acre, payable in ad-
vance. No applicant shall be allowed
to lease more than an area of 2500
acres. No tract may be contiguous,
and the area shall not exceed four
miles in its greatest dimensions. Ap-
plications are made through the do-
minion lands agent or a sub-agent of
the district. In unsurveyed territory
the applications must be made within
30 days after its being located. Where
a dispute as to location occurs the
right to the lease will be decided by
the minister of the interior upon hear-
ing evidence.

Coal mining leaseholders embracing
any portion of a township must con-
form to the dominion lands system of
survey. The lease shall include coal
mining rights only but the lessee may
upon application, be permitted to
purchase at the rate of \$10 an acre
whenever area of the available sur-
face rights the minister may consider
necessary for the efficient and
economical working of the coal min-
ing rights granted in the lease. The les-
see must begin operations in one year
from the date of his being notified to
do so and shall produce the quantity
of coal specified in such order. The
order will not be given until the ex-
piration of one year.

In no case will the maximum
quantity required to be mined during
each year be over ten tons per
acre leased. If the order is not com-
plied with then the lease is subject to
cancellation. The lessee cannot
sign his rights without leave of the
minister. Actual settlers shall be
satisfied in the first month
whatever cost they may require for
their own use, but not for further
sale at a price not to exceed \$1.75 per
ton, and the lease issued for coal
rights shall be subject to such pro-
visions. A fee of \$5 is charged for
each lease.

In addition to the rent a royalty of
five cents per ton of 2000 pounds will
be levied on the output of the mine.
A sworn statement of the output must
be given by the person operating the
mine. In default of this the lease
may be cancelled. In case of dis-
putes provision is made for arbitration.
The arbitrator will get \$5 a
day and travelling expenses. Under

minister of the interior parties will be
unable to hold coal for speculative
purposes. They must be operated or

**CONVENIENCE
FOR PUBLIC**

**C.P.R. MAY OBTAIN SITTING UP
BETWEEN TRAINS AT MACLEOD**

MAY PUT ON SLEEPER

Local officials recommend running
Passenger trains Calgary and Fer-
rie to Highgate with discontinue
wait at Macleod - Station of Line
Growth.

There is a possibility that an ar-
rangement may be effected in the
near future whereby people traveling
south over the C. & E. and west over
the Crow may be saved the disagree-
able necessity of losing a night's
sleep because of the miserable con-
nection at Macleod. The plan of the
local officials is to run a sleeper be-
tween Calgary and Ferrie, which
would undoubtedly be a great accom-
modation to a very large number of
people.

At present persons traveling south
from Calgary and west over the Crow
are obliged to sit up at Macleod
about four hours waiting for the west-
bound train which they expect to go
over town and get a bed for that
short time which they of course rarely
ever do. Then, unless they are
going beyond Ferrie it is not worth
while to take a berth and the result
is that ninety percent of the people
who have to make the trip, lose a
whole night's sleep. The night is an
exceedingly disagreeable one to the
very large number of people who
have the trip to make either regu-
larly or quite often and is not less so
to those who only make it occasion-
ally. Local railroad officials realize
the fact and have recommended to
their superiors that a sleeper be put
on between Calgary and Ferrie as
the business involved has now grown
to such proportions that they con-
sider it a duty to make a paying in-
vestment. The proposal is now before
the traffic department for considera-
tion. There is not much room to
doubt that such an innovation would
prove profitable, not only because of
the present volume of business but
because many people who now make
the trip only when they are obliged to,
on account of that night of horror,
would occasionally make it for plea-
sure.

Passenger business on the Crow is
growing to very large proportions as
is shown by the fact that the C.P.R.
has found it necessary to add a sec-
ond day coach on passenger trains.
The second coach has been running
some days and already the occasion
is rare when seats are not at a premium.

For a Clean and Orderly Town

Now for a clean and orderly town. The ratepayers at the final business meeting of the village last week, instructed the overseer to engage Corporal Askey of the mounted police to enforce the village regulations with especial reference to sanitary conditions, fires, collecting the dog tax and keeping animals off the streets. Overseer Farmer has put his instructions into effect and Corporal Askey has promptly set about dealing with the dog question. It is earnestly to be hoped all citizens will co-operate with Corporal Askey in seeing that the regulations are lived up to. People who have dogs should not make it difficult for him to collect the tax unless they are willing to lose their dog as he has rigid instructions to see that dog owners pay the tax or kill the dogs. Corporal Askey will act, conscientiously on his instructions and will permit no foolishness. Therefore, if you have a dog you think enough of to want to keep it, it will be the wise thing to see that the tax is paid and get a tag. Otherwise don't complain if you lose your dog for the corporal will have the whole town behind him and you will have no kick coming.

Similarly, all persons who own cows or pigs should co-operate with the officer by complying with the regulation adopted by the ratepayers declaring that such animals must not be permitted to be at large in the village. Owners of stock will be wise if they obey the regulation, otherwise they will be called upon to pay for their negligence or wilful disregard of the regulation for the rule is going to be enforced and such animals if permitted to run at large will be shut up and a fine will be collected for each head.

Also, with regard to sanitary matters, all householders should comply with the order of the overseer to clean up and remove any rubbish, of an infectious nature, liable to start flies. By doing so they will merely save themselves a call from the corporal which will not be at all pleasant if he is forced a second time.

There is going to be no unpleasantness over any of these matters of the citizens do what they now know is required of them and comply with the regulations. People who do not just not complain if things are made somewhat unpleasant for them for they may as well make up their minds that the regulations are going to be enforced. It is to be hoped nobody will give the corporal occasion to enforce any of the regulations prescribed by the law.

There is so much pleasure in running a newspaper that some editors are refusing money as a reward for their services. It takes time to run a newspaper. It takes a scintillating acrobatic imagination and a half dozen white shirts and a railway pass to run a newspaper. But money—heaven to Betsy and six hands round, who ever needed money to run a newspaper. Kind words are the medium of exchange that do the business for the editor, kind words and church social tickets. When you see an editor with money watch him. He will be paying bills and discharging the profession. Make him trade it out. He lives to swap. Then when you die, after having stood around and sneered at his dim Crow paper, be sure and have your wife send in for three extra papers by one of your children and when she reads the generous and touching notices about you, forewarn her to neglect to send 10 cents to the editor. The editor knows it and what he wants is heartfelt thanks. Then he can thank the printers and they can thank the grocers.—E.S.

The energy being displayed by Fire Chief McGowan to give Frank an efficient fire department are commendable in the highest sense. He should be given the earnest and liberal support of every ratepayer of the village.

BEET COMMISSION IS READY

The Beet Commission has finally taken shape. A preliminary meeting to arrange details was held at Medicine Hat the 13th.

Of the four provinces which first signified their intention to investigate this question, only two are standing by their first convictions, namely Manitoba and Alberta.

Sitting of the commission will be held at various places throughout the two provinces, to hear evidence from the producer, the dealer, the transporter and the consumer, and any others from whom information may be derived.

In the choice of places for these sittings the object will be to distribute them as well as possible, so as to cover the whole of the interested territory and give the commissioners an opportunity to hear evidence from from every district affected. It is probable that the following places in Alberta will be chosen: Medicine Hat, Lehighbridge, Macleod, Pincher Creek, High River, Calgary, Innisfail, Lacombe, Edmonton and Vermilion. If there are other places

which feel that their districts should be favored with a sitting it would be well for them to inform the Minister of Agriculture, Edmonton and the request will be considered.

The members of the mounted police have been changed about during the week. Constable Curry who has been stationed at Frank, goes to Coleman; Constable McDonald of Coleman, goes to Lille and Constable Hart comes to Frank temporarily. Lundbreck is to be given a man and Hart will go there shortly. A new man will be brought to Frank.

The design for the Alberta coat of arms has been approved and every province now has its provincial emblem. The Alberta shield, which has been approved, has a St. George's cross on the top, and below it a range of snowcapped mountains, with a plain and a field of wheat in the foreground. The design is quite a striking one.

Mark Drumm made a business trip to Edmonton and Calgary the latter part of the week. He found the north country fully three weeks behind the south. Not more than fifteen per cent of the seeding had been done and the indications were that, unless favorable conditions come quickly, the wheat acreage will be greatly reduced as much of the land will have to be sown to oats or barley.

Friday last the personnel of the government's commission to investigate and report on all phases of the coal mining industry was announced. The commission is composed of Chief Justice Sifton as chairman, Louis Stackett, general manager of the Pacific Coal company of Buckhead, representing the coal operators and William Haeon, president of the Coleman miners union, representing the coal miners. The commission will inquire into every condition touching coal mining and its report will be utilized for the information of the government in framing laws for the regulation of the industry in Alberta.

A girl baby was born to the wife of Andrew Watson of Bellevue Friday. A. F. Grady was up from Macleod Tuesday.

O. W. Bowker, manager of the "41" Market interests was up from Pincher the first of the week.

John Heydon, member of the house of commons for the Pincher riding, visited The Pass the first of the week. Provincial School Inspector Brown made his regular visit to The Pass this week.

The Frank Gun Club organized this week by electing A. V. Lang president and W. J. McGowan secretary.

WANTED—Three or four first class carpenters at once. Top wages paid.

Fraser & Sinclair, Frank and Blairmore.

Mrs. Flora Rowland, wife of Harry Rowland of Hileret, died Thursday evening last from the effects of complications following child birth. She leaves a husband and the infant child. The funeral was held Friday afternoon. Interment was at Blairmore cemetery.

Minister of Public Works W. H. Cushing will shortly visit The Pass to look over the road work that is being done by the government in this section. While here he will also go through some of the mines with a view to getting a better understanding of conditions surrounding the coal industry.

The Calgary papers have been worked up the past week over an alleged announcement that there is to be a raise in the price of coal at the mines and the operators are declared to be holding up the west. The fact is that the Bankhead mine is the only Alberta mine that has made any raise since the new agreement was signed. None of The Pass mines have raised the price.

A C.P.R. official stated to the editor of THE FRANK PAPER in Calgary during the week, that the recent strike in the coal industry had proven a blessing in disguise to the railroad company as it had enabled the company to clean up its freight. Business in better shape than could have been possible under other circumstances. The lumber and wheat business which had been very badly hit had been completely cleaned up, all other freight had been moved and the road found itself at the end of the strike in better condition as regards being up to date with freight handling than it had been for some years. Its all wind that does not blow cool to somebody.

The J. H. Driskers leave this morning, Mr. Driskers having closed up his business here. He will later go north on the line of the new railroad.

Manager C. E. Edwards of the provincial telephone service and Construction Superintendent J. H. Grieron visited Frank yesterday in connection with the long distance telephone line the government is building to The Pass.

The preliminary hearing of Felix Montabetti on a charge of perjury, preferred by H. E. Lyon as an outcome of the long Blairmore townsite controversy, was completed before Inspector Belcher Tuesday morning. Montabetti was committed for trial. He was released on the same bond furnished when the hearing was adjourned last week. Sheriff Duncan Campbell of Macleod, J. W. Stafford, dominion lands agent at Lethbridge and L. J. Clarke of Calgary, deputy registrar of the exchequer court of Canada for the northern Alberta judicial district, testified for the crown. The defense offered no testimony.
